What is Health Functional Food?	03
Korea's Health Functional Food Market Overview	06
About Korea Health Functional Food Association (KHFF)	08
Profile of Korean Health Functional Products and Ingredients	10
Status of Recognized Functional Ingredients	28

What is Health Functional Food?

Health functional foods are made using ingredients or components that provide beneficial effects to the human body or supplement nutrients that may be lacking in daily meals.

In Korea, all health functional foods distributed in the market are produced using ingredients that have undergone rigorous evaluations by the Ministry of Food and Drug Safety (MFDS), including human clinical trials and animal studies to verify their safety and efficacy.

These products are manufactured in compliance with Good Manufacturing Practices (GMP) and are subject to strict post-market monitoring, including pre-approval of functional claims and advertising, as well as traceability systems to ensure consumer safety.

Only products that pass these processes are allowed to carry the official Health Functional Food certification mark and functional claims on their packaging.

*Legal basis : Acts on Health Functional Food

Recognition Ingredient Types for Health Functional Foods

Nutritional Components (Authorized)

MFDS-standardized vitamins and minerals with defined functionalities and recommended daily intakes

*28 standardized nutrients, including 14 vitamins, 11 minerals, dietary fiber, proteins, and essential fatty acids, as defined

Functional Ingredients (Authorized)

Functional ingredients with established health claims and daily intake standards defined by the MFDS

* Examples : red ginseng, green tea extract, coenzyme Q10 etc.
(Total : 68 types)

Functional Ingredients (Individually recognized)

Ingredients individually recognized by the MFDS for exclusive functional use

* Examples : collagen peptide, boswellia extract, ashwagandha extract etc. (358 Types as of Dec. 2024)

Individually Recognized Ingredient System

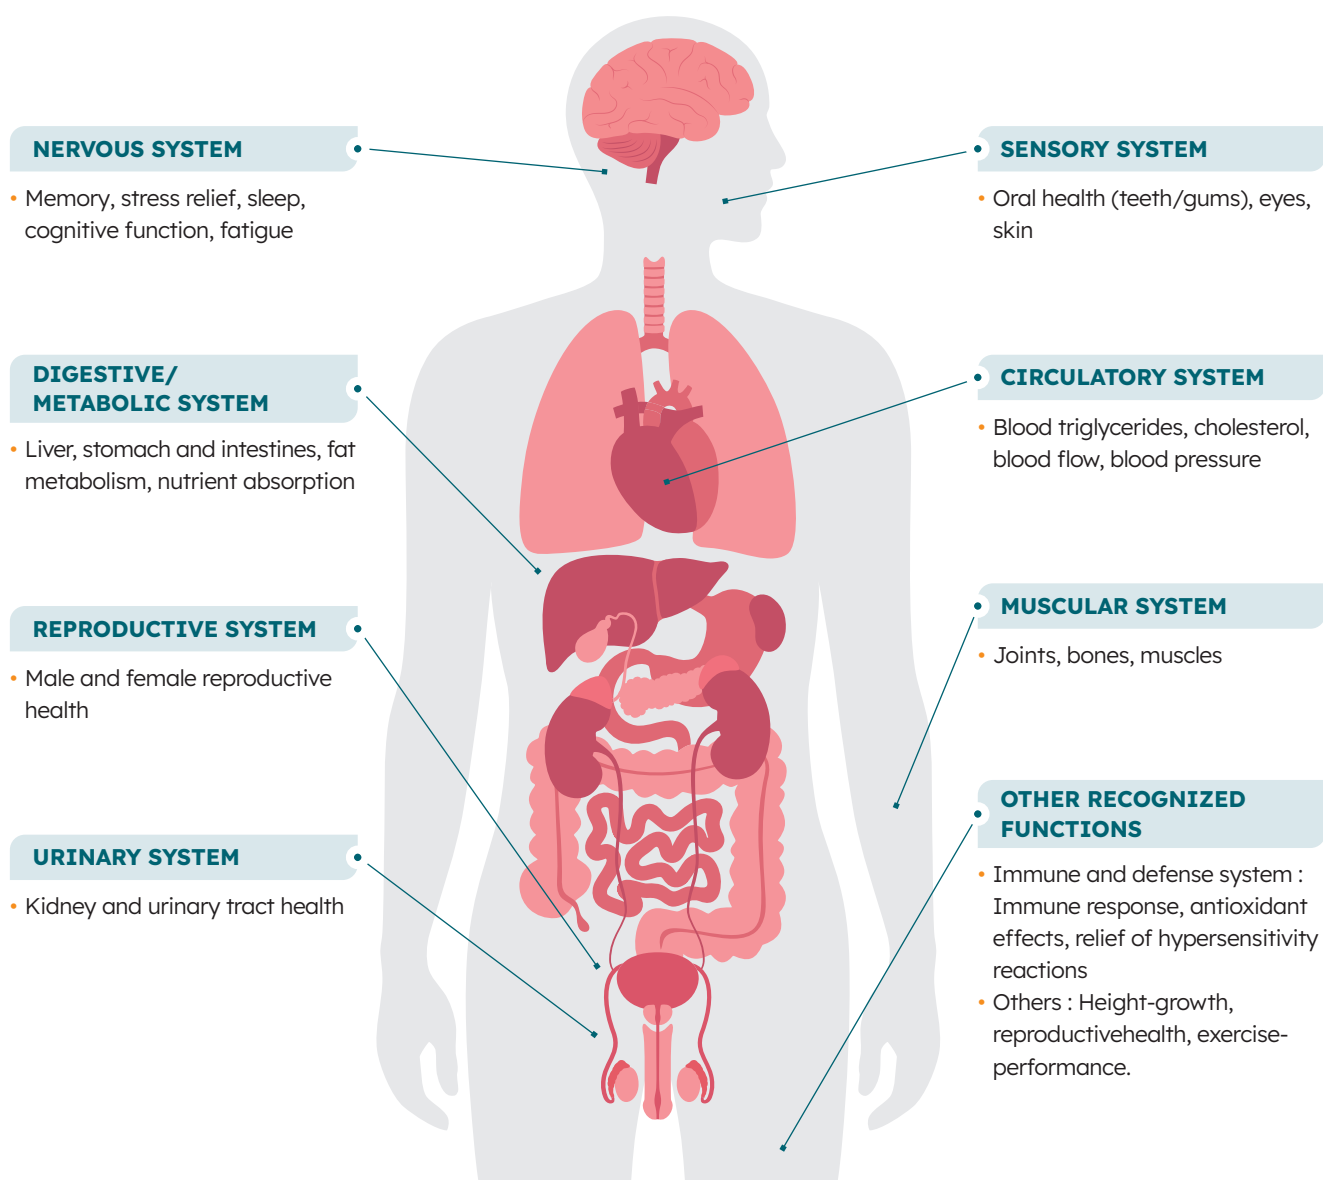

A government approval system based on scientific evidence for functional ingredients. Businesses may intend to obtain recognition from the Ministry of Food and Drug Safety (MFDS) for health functional ingredients they have developed, by submitting scientific data regarding specifications, safety, and functionality. Once recognition is given, the ingredient can be used exclusively by the applicant.

*Scientific evidence from animal experimentation, in vitro experimentation and human studies is required to prove both safety and functionality.

Functional Categories of Health Functional Foods

Category	Example of Functional Claim
Category Example of Functional Claim Nutritional Function	Provides essential nutrients that support human growth, development, and physiological functions. *Example : Niacin – helps produce energy in the body
Physiological Function	Helps maintain or improve normal body functions and biological activities. *Example : Green tea extract – may help reduce body fat
Disease Risk Reduction Function* <small>*SSA-level scientific evidence required.</small>	Helps reduce risk factors associated with diseases or abnormal health conditions. *Example : Calcium – may help lower the risk of osteoporosis
Types	Currently, 57 health claims have been approved (e.g., fat reduction, joint and hair health, child growth), with more being added continuously.

Body Systems and Recognized Functions

About Health Functional Foods

Approved Dosage Forms for Health Functional Foods

13 types

Tablet	Capsule	Pill	Granule	Powder	Liquid	Syrup
Soft capsule	Hard capsule	Jelly	Oral film	Gel	Chewable	

*Sustained-release forms are allowed for water-soluble

Quality Control of Health Functional Foods

- GMP certification mandatory for all domestic health functional food manufacturers (since 2022)
- Smart GMP system introduced in 2024 for automated recording and management.

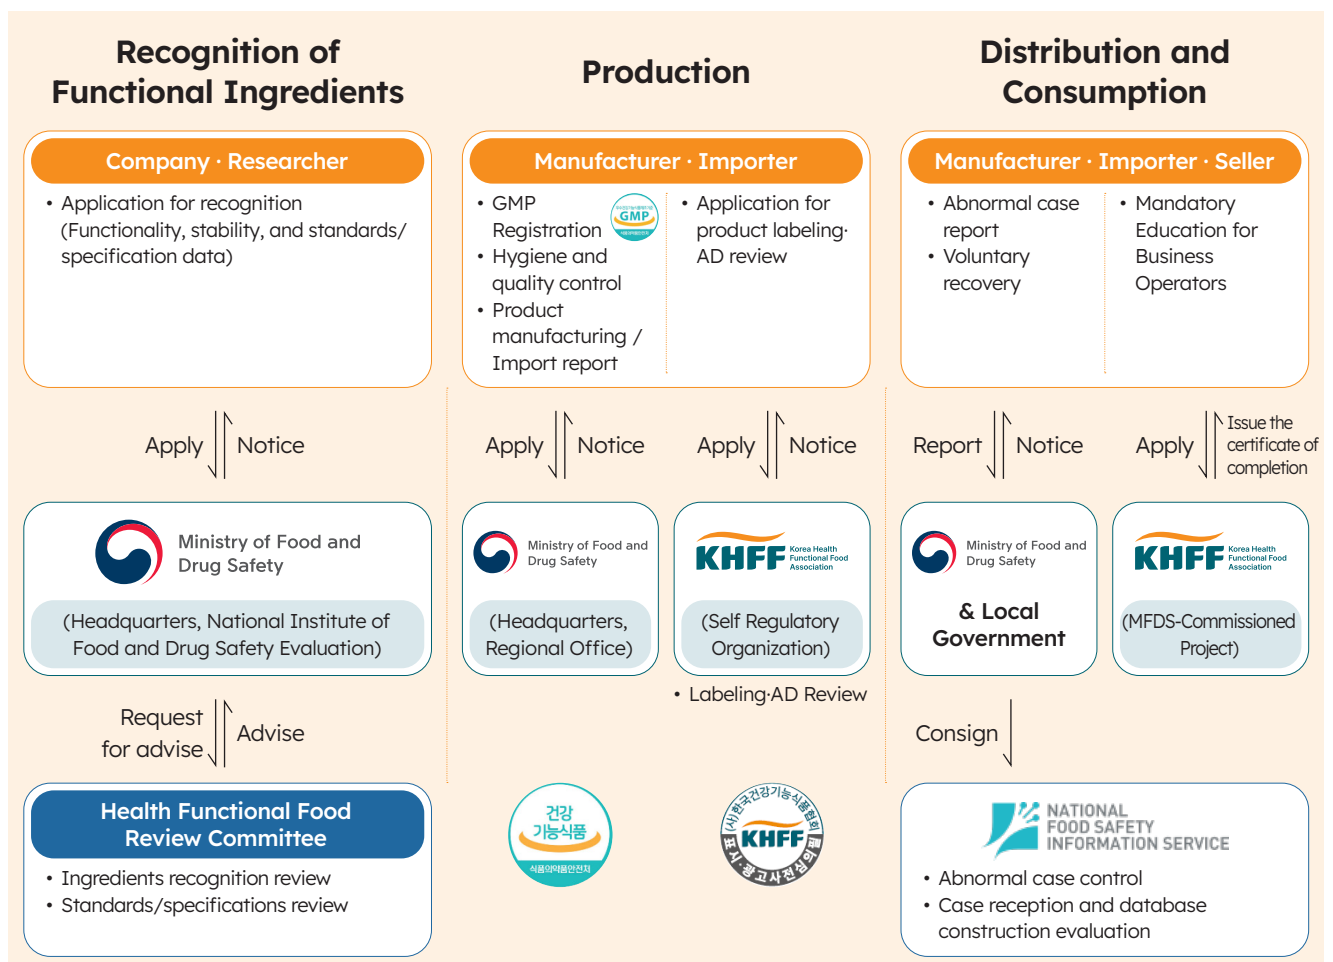

Prevention of False or Misleading Advertising

- Pre-approval of advertisements required to prevent consumer harm from false or exaggerated claims.

Post-Market Surveillance and Management

- **Adverse Events** Business operators are required to report any adverse events that occur after consumption.
- **Re-evaluation** Functional ingredients are re-evaluated every 10 years (or sooner if issues arise).
- **Ad Monitoring** Ongoing monitoring and enforcement against illegal advertisements.

Health Functional Food Management System

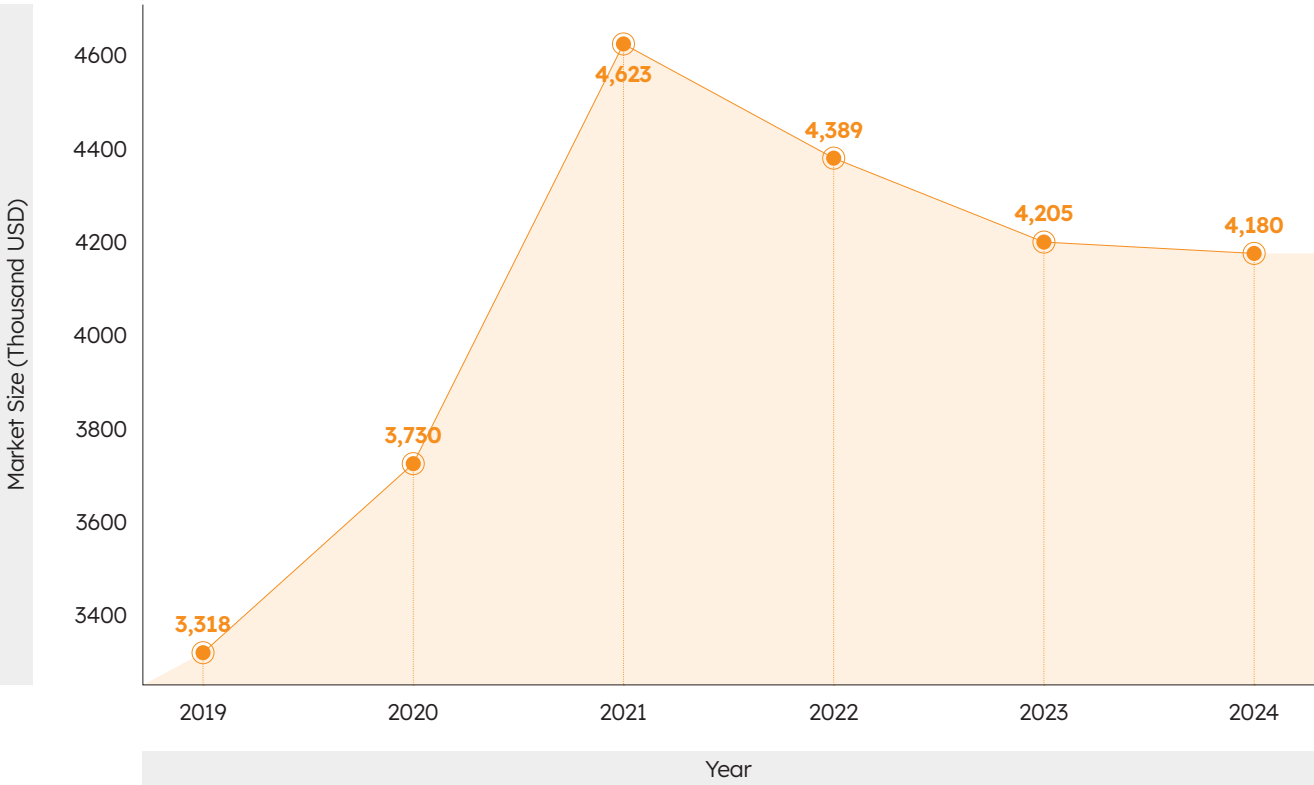

Korea's Health Functional Food Market Overview

Market Size

In 2024, Korea's health functional food market reached a total of **4,179,923,000 USD**.
Driven by steady domestic market growth, both imports and exports have continued to expand.

Korea Health Functional Food Market Size (2019-2024)

Standards & Sources : Factory production output value, referenced from MFDS 2024 Food Production Report

Both imports and exports have continued to expand.

Market Status by Functional Ingredient

Top 10 Functional Ingredients : Authorized vs. Individually Recognized

No	Authorized Functional Ingredients	Individually Recognized Functional Ingredients
1	Red Ginseng	Lutein Zeaxanthin Complex Extract
2	Vitamins and Minerals	HemoHIM Extract complex of Angelica gigas Nakai
3	Probiotics	Xylo-oligosaccharide powder
4	EPA & DHA oils	Mixture of Astragalus membranaceus and Phlomis umbrosa and Eleutherococcus senticosus
5	Milk Thistle Extract (Carduus Marianus)	Complex extract of Undaria pinnatifida(Xanthigen)
6	Fructooligosaccharide	Low molecular weight collagen peptide
7	Garcinia cambogia Extract	Sunflower sprout extract powder
8	Phosphatidylserine	Extract of unripe apple(Applephenon)
9	MSM (Methylsulfonylmethane)	Green lipped mussel oil complex
10	Aloe Vera Gel	Respecta®[probiotics complex]

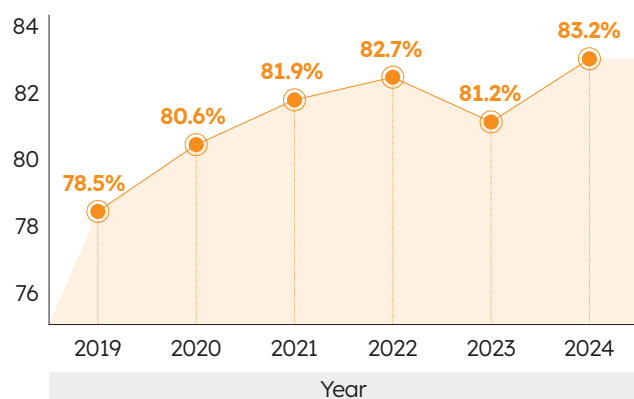

Sources : MFDS 2024 Food Production Report

Korean Consumer Behavior Trends

- In 2024, 83.2% of Korean consumers had experience purchasing health functional foods.
- With an average household spending of approximately 240 USD—consistently above 220 USD over the past five years.

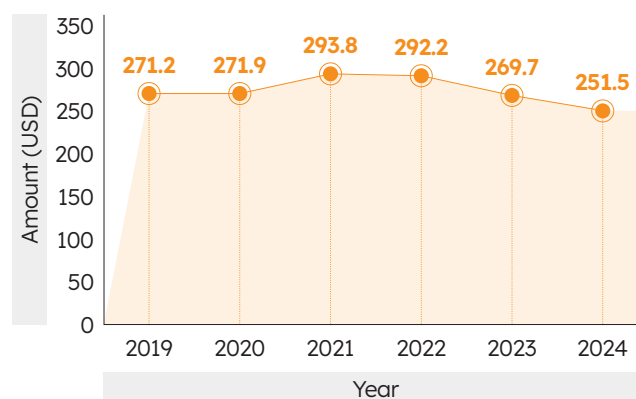

Purchase Penetration (%)

Share of households with at least one purchase of health functional foods

Average Purchase per Household (USD)

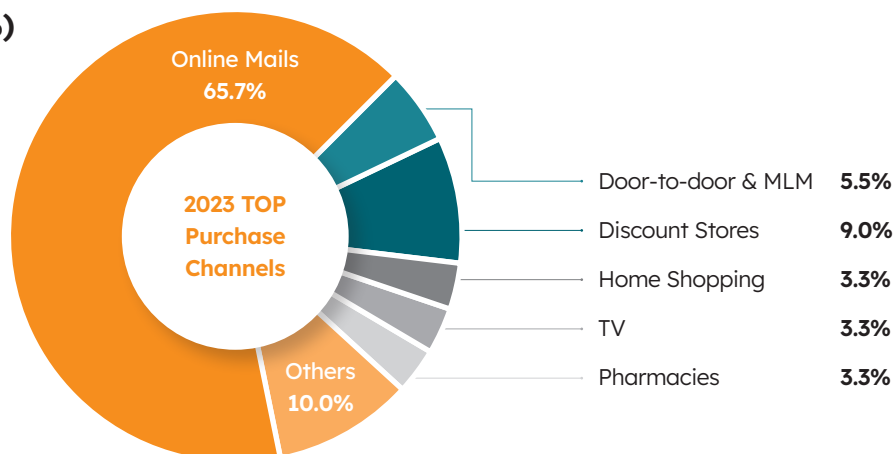

Annual spending per purchasing household

Major Purchase Channels in Korea

2023 TOP Purchase Channels for Health Functional Foods (%)

- Health functional foods in Korea are distributed through various channels, with online shopping malls accounting for a dominant 65.7% of total purchases.
- Korean consumers place high value on convenience and ease of price comparison when choosing where to buy.

Organization Chart

Core Activities

Policy Development & Regulatory Affairs

- Conduct policy research and advocate for regulatory improvements to promote the growth of the health functional food industry
- Operate committees for legal and institutional reform and subcommittees
- Operate Fair Trade Guidelines for industry transactions and support technology transfer agreements

Export Promotion

- Collaborate with government bodies and related organizations to promote overseas exports
- Organize overseas trade show delegations and provide export reports and seminars

Member Services

- Operate Q&A and networking services for member companies
- Provide customized industry information, run a YouTube channel, and publish over 20 industry reports annually

Public Outreach & Promotion

- Promote public awareness and trust in health functional foods through nationwide campaigns and manage an online information portal

Advertising & Labeling Self-Regulatory Review

- Conduct pre-reviews and monitoring of labeling and advertisements
- Operate the Self-Regulatory Review Committee on Health Functional Food Advertising, in accordance with Article 10, Paragraph 2 of the relevant Act

Government-Commissioned Training & Professional Education

- Provide statutory training for health functional food business operators and import food safety education under government delegation
- Offer professional training programs to develop industry specialists, including : GMP guidelines and documentation, basic knowledge of health functional foods, individually approved ingredients, labeling and advertisement regulations

Operation of Korea Functional Food Research Institute (KFFRI)

- Testing & Inspection Services (Testing of Food, Food Additives, and Health Functional Foods)
- Functional Food Research Center (R&D, Collaboration with government)

Product Information

Product / Ingredient Name	Black Cumin Extract (BCS-001F)	<div>Product Image</div> 
Type	functional ingredient (individually approved)	
Main Material	Black Cumin, Nigella sativa	
Main Function	Can help reduce body fat (individually recognized functional ingredient by the Ministry of Food and Drug Safety).	
Composition	Powdered ingredient (available for OEM in various forms such as capsules, powders, and sticks)	
Certifications	Certification of an individually approved ingredient recognized by the Ministry of Food and Drug Safety (MFDS).	
Product Description	BCS-001F is a functional ingredient that extracts the core active compounds of black cumin in high concentration. It was developed based on scientific evidence that it can help reduce body fat. This ingredient can be manufactured into various product forms both domestically and internationally, allowing it to be used as a distinctive raw material in the health functional food market.	
Main Features	<ul style="list-style-type: none">• Government-Backed Functional Claim: Approved in Korea for its efficacy in reducing body fat.• High-Content Thymoquinone: One of the highest-potency black cumin extracts available on the market.• Premium Extraction: Supercritical CO₂ extraction ensures purity, safety, and eliminates solvent residues.• Ideal for Functional Formulations: Suitable for incorporation into capsules, beverages, slimming teas, and herbal blends.	

Product / Ingredient Name	Diet Garcinia & Probiotics	Product Image 
Type	finished product	
Main Material	Cambogia Extract , 17 Types of Mixed Probiotics	
Main Function	Helps reduce body fat by inhibiting the synthesis of carbohydrates into fat. Can aid in intestinal health by promoting the growth of beneficial lactobacilli, suppressing harmful bacteria, and facilitating smooth bowel movements.	
Composition	3.5g x 30ea (powder sticks)/box	
Certifications	GMP, HACCP	
Product Description	No More Starvation Diets! Make a smart choice for both body fat management and gut health with 'Diet Garcinia & Probiotics'	
	<ul style="list-style-type: none">• Garcinia Cambogia Extract containing 750mg• 17 strains of probiotics, with 5 billion CFU input and 1 billion CFU guaranteed• Aids in body fat reduction by inhibiting the conversion of carbohydrates into fat• Supports gut health by promoting smooth bowel movements and suppressing harmful bacteria• Boosts synergy with 7 supplementary ingredients, including fructooligosaccharides and chicory root• Deliciously tangy lemon flavor makes dieting enjoyable• Worry-free consumption with no 6 unnecessary additives• Conveniently take one packet a day, 30 minutes before a meal	
Main Features	<ul style="list-style-type: none">• Dual-action formula for fat reduction and gut health — powered by Garcinia Cambogia extract (750mg) and 17 probiotic strains (3 billion CFU).• Supports weight management by inhibiting fat synthesis from carbohydrates and promoting smooth digestion.• Clean and refreshing with lemon flavor, zero artificial additives, and synergistic prebiotic ingredients for enhanced results.

Product Information

Product / Ingredient Name	CoreBlast5 / Low Molecular Weight Whey Protein Hydrolysate	Product Image 
Type	Functional ingredient	
Main Material	Whey Protein Concentrate	
Main Function	Muscle strength improvement	
Composition	15kg/bag	
Certifications	FSSC22000, ISO22000, KMF Halal,	
Product Description	CoreBlast5 is low molecular weight whey protein hydrolysate manufactured through a special manufacturing method. Cell and animal tests have shown its ability to prevent and improve sarcopenia. It contains peptides made up of five amino acids, which can help improve muscle strength. Safety has been proven through toxicity assessment by GLP institutions.	
Main Features	<ul style="list-style-type: none">• Muscle strength improvement• Higher absorption rate than other competitors’ product• High Solubility, pH stability, Heat stable, Functionality as Muscle Strength Improvement is approved

Authorized Ingredients(96)

Division	Ingredients
Nutrients (28)	Vitamins or Minerals (25) : Vitamin A, β-Carotene, Vitamin D, Vitamin E, Vitamin K, Vitamin B1, Vitamin B2, Niacin, Pantothenic Acid, Vitamin B6, Folic Acid, Vitamin B12, Biotin, Vitamin C, Calcium, Magnesium, Iron, Zinc, Copper, Selenium, Iodine, Mangan, Molybdenum, Potassium, Chrome - Fiber - Protein - Essential Fatty Acid
Functional Ingredients (68)	Ginseng, Red Ginseng, Chlorophyll-containing plants, Chlorella, Spirulina, Green tea extract, Propolis Extract, CoenzymeQ10, Soy Isoflavon, Guava Leaf extract, Banaba Leaf extract, Ginkgo Biloba extract, Milk Thistle Extract, Oenothera biennis seed Extract, EPA and DHA Algal oil, Gamma-Linolenic Acid(GLA) containing oil, Lecithin, Squalene, Phytosterol Ester, Shark Liver oil, Octacosanol-containing oil, Prunus Mume Fruit Extract, Conjugated Linoleic Acid(CLA), Garcinia Cambogia extract, Calendula officinalis flower Extract, Hematococcus Pluvialis extract, Saw palmetto extract, Phosphatidylserine, Glucosamine, N-Acetylglucosamine, Mucopolysaccharide-Protein, Partially Hydrolyzed Guar Gum, Glucomannan, Oat Fiber, Resistant maltodextrin, Soy fiber, Fiber of Wood Ear Mushroom, Wheat fiber, Barley fiber, Gum Arabic, Corn bran fiber, Chicorium Intybus Extract, Psyllium Husk fiber, Polydextrose, Fenugreek Seed fiber, Aloe Gel, Ganoderma Lucidum Fruiting Body extract, Chitooligosaccharides, Fructooligosaccharides, Probiotics, Red Yeast Rice, Soy Protein, Theanine, Methyl Sulfonylmethane(MSM), Poly-Gamma-Glutamic Acid, Hyaluronic Acid, Rhodiola Rosea extract, Bilberry extract, Garlic, Raffinose, Agar powder, Creatine, Milk Protein Hydrolysate(Lactium), Phellinus Linteus extract, Solanum Lycopersicum (Tomato) Fruit Extract, Konjac Potato Extract, Sophora Japonica Fruit Extract, Coleus Forskohlii Extract

Recognized Ingredients(358)

No.	Function	Ingredients	Total
1	Liver Health	May help to protect liver Platycodon Root Extract, Milk thistle extracts, Rubus coreanus extract powder, Extract complex of Lemon balm and Dandelion(LD100), Magnus Lentinus edodes Mycelia Extract Powder, HK Shiitake Mushroom Mycelia, Probiotics fermented garlic extract powder, Ecklonia stolonifera Extract, Artemisia annua extract powder, Ginseng	10
		May help to protect liver from alcoholic liver injury Fermented Sea Tangle, Hovenia dulcis Thunb. extract powder, Hovenia dulcis Thunb. extract, Barley shoot extract(Rexcliver®)	4
		May help to liver health by non-alcoholic liver injury Lonicera caerulea L. fruits(honeyberries) extract powder, Probiotics mixture of L. plantarum LC27 and B. longum LC67	2
2	Male health in menopause	May help to maintain male health in menopause Korean Dandelion Extract Complex, Maca Gelatinized Powder, Rhus verniciflua Extract Powder, Trigonella foenum-graecum seed extract, Extract complex of fenugreek seed and lespedeza, Lespedeza cuneata G. Don extract, Complex Extract of Eucommia ulmoides Oliver and Achyranthes japonica Nakai(Achyranthes bidentata Blume)	7
3	Female health in menopause	May help to maintain female health in menopause Pycnogenol-French maritime pine bark extract, EstroG-100, Pomegranate extract, Red Ginseng, Pomegranate Juice Concentrate, Sophora japonica L. fruit extracts, Schisandra chinensis extract, Rhapontic Rhubarb root extract, Lactobacillus acidophilus YT1(HU038), Extract complex of soybean and hop, MS-10 Thistle Complex Extract, Fermented germinated soybean extract, Ethanol extract powder of the root of Salvia miltiorrhiza Bunge	13
4	Improvement of sensitive Skin Condition	May help to improve skin condition by reducing hypersensitivity reaction L. sakei Probio65, Edible oil containing gamma-linolenic acid, Fruit and vegetable origin LAB(L. plantarum CJLP133), Lactocaseibacillus rhamnosus IDCC3201 Heat treatment culture Powder(RHT3201®)	4

No.	Function		Ingredients	Total
5	Joint / Bone Health	May help to maintain joint(and cartilage) health	Fatty Acid Complex containing Cetyl Myristoleate, <u>NAG</u> , <u>MSM</u> , Siberian ginseng mixture extract, Curcuma longa root extract, <u>Glucosamine</u> , Litsea japonica fruit ethanol extracts, Chicken breast cartilage powder(UC-II), Rosehip Powder, Boswellia serrata R. extract(2), Bees Wax Alcohol(BWA), Panax Notoginseng-Rehmanniae Radix and Acanthopanax Cortex extract powder, Fatty acid complex, Perilla frutescens var. acuta Kudo extract complex, Green lipped mussel oil complex, Hop Extract, Scutellaria Composition, Angelica gigas extract powder(Nutragen), Extract complex of achyranthes-eucommiaceae and pomegranate, Salmon Milt extract(DOT™Salmon Nucleotide), Chondroitin sulfate sodium, Extract Complex of Fermented Achyranthes-Angelica gigas and Eucommia, Extract complex of Boswellia serrata-Curcuma longa and Terminalia chebula., Chrysanthemum Extract, Terminalia chebula Retzins Extract, Anthriscus sylvestris(L.) Hoffm Leaf Extract, Complex of Krill oil-Hematococcus extract and Sodium hyaluronate, Krill Oil(FJH-KO), Andrographis paniculata Wall. ex Nees Extract, Taheebo extract(Tabetri®), Extract powder of Lilium lancifolium Thunb., Egg shell membrane hydrolysate(NEM®), Extract complex of Tamarindus indica and Curcuma longa(TamaFlex®), Siraitia grosvenorii Extract Powder , Boswellia serrata Extract(SERRATRIN), Krill Oil(Superba™ Boost)	37
		May help to maintain healthy bone	Rehmanniae Radix and Acanthopanax Cortex extract powder, <u>Soybean isoflavone</u> , Milk Basic Protein, <u>Ginseng Extract</u> , Extract complex of Schisandra chinensis-Eucommia ulmoides and Lycium chinense	5
6	Improvement of Memory	May help to improve memory	Lycium chinense Fruit extract, Angelica gigas Nakai-Saururus chinensis Baill-Schisandra chinensis extract complex, Eriobotrya Leaf Extract, <u>Edible oil containing EPA and DHA</u> , Polygala tenuifolia Willdenow root extract powder, <u>Ginkgo leaf extracts</u> , <u>Red Ginseng</u> , Gastrodia combination extract, Mixture complex of Grape and blueberry powder, Secame Oil Cake Extract, Heat treated green tea extract, Scrophularia buergeriana Miquel Extract, Spirulina Extract(SM70EE), Extract powder of Panax ginseng C.A.Meyer sprout, BF-7(Brain Factor-7) Silk Fibroin Peptide	15
7	Stress Relief	May help to relieve stress	<u>L-Theanine</u> , Ashwagandha extract, Hydrolyzed milk protein, Gynostemma pentaphyllum Makino extract powder	4
8	Eye Health	May help to reduce eyestrain	<u>Bilberry extracts</u> , <u>Haematococcus pluvialis extracts</u> , Extract of Perilla frutescens var. acuta Kudo	3
		May help to maintain eyes healthy	Lutein Zeaxanthin Complex Extract(3), <u>Lutein complex</u> , Lutein Zeaxanthin Complex Extract 20%, Marigold extract, Zeaxanthin extract, <u>Edible oil containing EPA and DHA</u> , Grape skin enzyme fermentation extract(KL-GEFE), Centella asiatica Extract, Ethanol extract powder of Diospyros kaki leaves, Complex of Lutein and Zeaxanthin extracted from Tagetes erecta L.	12

No.	Function	Ingredients	Total
9	Improvement of Immune Function	L-glutamine, HemoHIM Extract complex of Angelica gigas Nakai·Cnidium officinale Makino and Paeonia lactiflora Pallas, Bio-Germanium Yeast, Phellinus linteus, AHCC, Chlorella, Bacillus subtilis chungkookjang culture purification substance, Cordyceps militaris extract, Yeast β -glucan, PLAG(1-palmitoyl-2-linoleoyl-3-acetyl-rac-glycerol), Ginseng polysaccharide extract, Silk protein acid hydrolysate(Sil-Q1), β -glucan powder, Extract complex of Perilla frutescens var. japonica(Hassk.) H. Hara and Portulaca oleracea L, Weissella cibaria JW15 Probiotics, Echinacea extract, Enzyme-treated Extract of Cervus elaphus L.(HENKIV®), Ganoderma lucidium Mushroom Mycelia extract, Lactoferrin	19
		May help to reduce hypersensitivity reactions	1
		May help to improve nasal condition by reducing hypersensitivity reaction	6
10	Improvement of Urination Function	May help to improve bladder control	1
11	Improvement of Sleep Quality	May help to improve sleep quality	5
12	Physical Growth of Young Children	May support physical growth of young children	2
13	Women Vaginal Health	May help to proliferate vaginal beneficial flora and to suppress pathogenic bacteria	2
14	Improvement of Premenstrual Condition	May help to improve premenstrual syndrome condition	2
15	Stomach Health / Digestive Function	May help to maintain healthy stomach by suppressing Helicobacter pylori growth and protecting gastric mucosa	2
		May help to reduce stomach discomfort	2
		May help to maintain healthy stomach by protecting gastric mucosa	8
		May help fat digestion by facilitating the secretion of bile acid	1
16	Urinary Tract Health	May help to maintain healthy urinary tract	2

No.		Function	Ingredients	Total
17	Exercise Performance	May help to improve exercise performance	Maca Gelatinized Powder, <u>Creatine</u> , Hovenia dulcis Thunb. extract powder, Lactiplantibacillus plantarum TWK10 Probiotics, CaHMB(Calcium β -Hydroxy- β -methylbutyrate)	5
		May help to improve endurance	Fermented of P. hepiali(Cs-4) from Cordyceps sinensis	1
18	Improvement of Cognitive Function	May help to improve cognitive function	Platycodon Root Extract(DRJ-AD), Angelica gigas root extract, Angelica gigas extract powder (Nutragen), <u>Phosphatidylserine</u> , Enzyme-Treated Tremella fuciformis Extract(Neu learn), Complex of Lactiplantibacillus plantarum C29 Probiotics and fermented soybean powder(DW2009), Aster glehni extract powder, Gastrodia elata Extract, Leaf and stem extract of Dendropanax morbiferus	9
19	Gut Health	May help to increase beneficial intestinal flora and suppress pathogenic bacteria	<u>Guar gum hydrolysate</u> , Soy oligosaccharide, <u>Raffinose</u> , Lactulose powder, Resistant maltodextrin from wheat starch, Isomalto-oligosaccharide, Xylooligosaccharide powder, Coffee mannoooligosaccharides powder, <u>Fructooligosaccharide</u> , Galactooligosaccharide powder, Probiotics(VSL#3)	11
		May help to maintain healthy gut by regulating immunity	Probiotics(VSL#3)	1
		May help to improve bowel movements	Soy oligosaccharide, <u>Raffinose</u> , <u>Tree ear dietary fiber</u> , Fig paste, <u>Agar powder</u> , Isomalto-oligosaccharide, Xylooligosaccharide powder, Coffee mannoooligosaccharides powder, Probiotics(VSL#3), Portulaca oleracea L. extract powder(KDC16-2), Bacillus coagulans Unique IS-2 Probiotics, Bacillus coagulans SNZ 1969 Probiotics	12
20	Prostate Health	May help to maintain healthy prostate	Saw palmetto fruit extracts, Saw palmetto extract complex, Quisqualis indica Linn. Extract, Red ginseng Oil(KGC11o), Complex Extract of Cervus elaphus, Angelica gigas and Glycyrrhiza uralensis, Extracts complex of Angelica gigas Nakai and Astragalus membranaceus Bunge	6
21	Sperm Motility	May help to increase sperm motility	Maca Gelatinized Powder	1
22	Body Fat Reduction	May help to reduce body fat	Lactobacillus gasseri BNR17, L-carnitine tartate, <u>Garcinia Cambogia extracts</u> , <u>Conjugated linoleic acids(Free Fatty Acid)</u> , <u>Conjugated linoleic acids(Triglyceride)</u> , Green Mate extract, Green coffeebean extract, Perilla leaf extract(PF501), <u>Green tea extracts</u> , APIC Soybean embryos extract, Ethanol-Extracted Powder of Gynostemma pentaphyllum Leaf, Lactoferrin, Mixture complex of lemonbalm extract powder, Complex extract of Undaria pinnatifida(Xanthigen), Vinegar-pomegranate complex, Puer tea Extract, Black Soy Peptide, Oil containing diglycerides, Irvingia gabonensis seed extract, Oil containing MCFA, <u>Coleus forskohlii extracts</u> , <u>Chitosan</u> , <u>Chitooligosaccharide</u> , Extract of unripe apple(Applephenon), Fingerroot extract powder, Mixture of CJ hibiscus and other extracts, Green coffeebean ethanol extract, Cissus quadrangularis Extract, Probiotics mixture of L. curvatus HY7601 and L. plantarum KY1032, Extract of Gelidium elegans, Extract complex of grapefruit-orange and guarana(Sinetrol), Aster spathulifolius Extract, Fermented Castanea crenata inner shell extract, Moroorange extract(Morosil®), Extract complex of Lemon verbena and Hibiscus(TETRE®), Extract complex of Cornus officinalis and Ribes fasciculatum(Ribestin®), Adenophora triphylla var. Japonica Hara extract, Bifidobacterium breve B-3 Probiotics, Amomum Villosum extract, Zea mays-Melissa officinalis extract(CL-5MoA), Dichrostachys glomerata extract(Dyglomera®), Krill Oil(Superba™ Boost), Wasabi leaf extract(NCWL01), Kaempferia parviflora Extract, Lythrum salicaria extract, The hot water extract of hydrangea leaf(ReSeringe®)	46

No.	Function	Ingredients	Total
23	Dental Health	Can help to reduce risk of caries occurrence(dental health) Xylitol	1
24	Promotion of Calcium Absorption	May help to support calcium absorption <u>Poly γ-glutamic acid</u> , <u>Fructooligosaccharide</u>	2
25	Reduction of Fatigue	May help to reduce fatigue Fermented Generating Amino Acid Complex, Hovenia dulcis Thunb. extract powder, Rhodiola rosea L. extracts, The fermented extract of pig placenta, Complex Extract of Angelica gigas Nakai-Cervus elaphus L. and Astragalus membranaceus Bunge	5
26	Skin Health	May help to maintain good skin health by protecting against damage from UV exposure Pine Bark Extract Complex, PME88 melon extract, <u>Phosphatidylserine</u> , Probiotics HY7714, Fingerroot extract powder, Red ginseng-Torilis japonica-Cornus officinalis complex extract, Fermented Honeybush Extract Powder, <u>Hyaluronic Acid</u> , Pomegranate Juice Concentrate Powder, Low molecular weight collagen peptide NS, Extract complex of rosemary and grapefruit(Nutroxsun), Fish Collagen Peptide, Agastache rugosa extract(Agatri®), The hot water extract of hydrangea leaf (ReSeringe®), Galactooligosaccharides(NeoGOS-P70), Oyster hydrolysate, Extract complex of Rosmarinus officinalis L. and Tagetes erecta L., Bonito Elastin Peptide(VGPG Elastin®), Vaccinium uliginosum L. fruits extract powder, Low molecular weight Fish Collagen Peptide (Naticol® BPMG), Whey protein lipid extract, Powder of egg shell membrane, Concentrated powder of milk cream, Concentrated powder of Citrus sinensis (L.) Osbeck(ROCH), Low molecular weight collagen peptide(2), Low molecular weight collagen peptide SH, Unripe apple concentrated powder(APPLOZIN®), Probiotics mixture of L. plantarum PBS067-L. reuteri PBS072 and L. rhamnosus PBS070, Silver vine fruit extract powder, Refined fish oil from Alaska pollack containing palmitoleic acid, Korean mint-Goji berry and Fig Mixed Extract, Low molecular weight collagen peptide AG	33
		May help to moisturize (dry) skin AP Collagen Peptide, Collactive Collagen Peptide, <u>NAG</u> , Amorphophallus konjac extracts, Dandelion Extract Powder Complex(AF-343), Rice bran Extract, Corn germ extract, Low molecular weight collagen peptide(3), Gromwell Extract, <u>Phosphatidylserine</u> , <u>Hyaluronic acid</u> , Probiotics HY7714, Pomegranate Juice Concentrate Powder, Fermented barley and soybean moisturizing agent, Wheat Endosperm extract, Fingerroot extract powder, Pomegranate Juice Concentrate, Fish Collagen Peptide, Agastache rugosa extract(Agatri®), The hot water extract of hydrangea leaf(ReSeringe®), Wheat extract(Ceratiq®), Bonito Elastin Peptide(VGPG Elastin®), Low molecular weight Fish Collagen Peptide(Naticol® BPMG), Whey protein lipid extract, Powder of egg shell membrane, Concentrated powder of milk cream, Concentrated powder of Citrus sinensis (L.) Osbeck(ROCH), Low molecular weight collagen peptide SH, Unripe apple concentrated powder(APPLOZIN®), Probiotics mixture of L. plantarum PBS067-L. reuteri PBS072 and L. rhamnosus PBS070, Silver vine fruit extract powder, Refined fish oil from Alaska pollack containing palmitoleic acid, Korean mint-Goji berry and Fig Mixed Extract, Low molecular weight collagen peptide AG, Krill Oil(Superba™ Boost)	37
27	Antioxidant	May help protect body from oxidative stress <u>Green tea extracts</u> , PME88 melon extract, Bees Wax Alcohol(BWA), <u>Coenzyme Q10</u> , Tomato extracts, GRAPE SEED EXTRACT(GRAVINOL-S), Pycnogenol-French maritime pine bark extract, <u>Red Ginseng</u> , Bokbunja powder	9

No.	Function		Ingredients	Total
28	Blood Glucose Level Control	May help to maintain healthy blood glucose levels	L-arabinose, Nopal Extract, <u>Guava leaf extracts</u> , <u>Indigestible maltodextrin</u> , Freeze dry silkworm powder, <u>Banaba leaf extracts</u> , Mulberry Leaf Extract, Black Soy Peptide, Pine needle distilled concentrate, Albumin, Hydrolyzed Ginseng Extract, Mixture complex of Mori Folium and Aurantii Fructus extract, Fermented Soy bean Extract, Tagatose, <u>Evening primrose seed extracts</u> , Hydroxypropylmethyl cellulose, The submerged culture of Ceriporia lacerata mycelium, <u>Chitooligosaccharide</u> , Unripes momordica charantia ethanolic extract powder, Morus alba L. Branch Ethanol Extract Powder, Lactiplantibacillus plantarum HAC01 Probiotics, Powder of Capsicum annuum L. cv. Dangjo	22
29	Blood Pressure Control	May help to reduce blood pressure	GABA from L-glutamin acid powder, Katsuobushi Oligopeptide, Fermentation powder of the Bacillus subtilis var. Natto, Black Soy Peptide, Salmon Peptide, Olive Leaf Extract, SARDINE PEPTIDE SP100N, Hydrolyzed Casein, <u>Coenzyme Q10</u> , Enzyme Treated Grape Seed Extract, NORI PEPTIDE, Eleutherococcus sessiliflorus fruits extract powder, Black raspberry extract powder, Enzyme treated red ginseng extract powder	14
30	Improvement of Blood Triglyceride Levels	May help to reduce blood triglyceride levels	<u>Omega-3 fatty acid ethyl ester</u> , Globin Peptide, <u>Indigestible maltodextrin</u> , Oil containing diglycerides, <u>Refined Sardine Oil</u> , Refined squid oil, Lactobacillus Plantarum Q180, Post-Fermented Tea(Heukcha) Extracts	8
31	Improvement of Blood Cholesterol	May help to reduce blood cholesterol levels after meals	<u>Green tea extracts</u> , Barley β-glucan extract, Puer tea extract, Sugarcane wax alcohols(Policosanols), <u>Spirulina</u> , Plant Stanol Ester, eapolynol Ecklonia cava ethanol extract, Flax plant powder, Fermented-red grape concentrate, <u>Chlorella</u> , <u>Red yeast rice</u> , Changnyeong onion extract, Bokbunja extract(RE-20), B. breve IDCC 4401(BBR4401) heat treatment culture powder, Mixture of L. plantarum CECT 7527-CECT 7528 and CECT 7529, Yellow rice with Aspergillus terreus(Aspergillus fermented MK01)	16
32	Improvement of Blood Circulation	May help to improve blood circulation	<u>Omega-3 fatty acid ethyl ester</u> , L-Arginine, Fermentation powder of the Bacillus subtilis var. Natto, HK Natto Culture Extract, PME88 melon extract, Ginkgo leaf extracts, Refined Sardine Oil, Refined squid oil, Theobroma cacao L, Vitis labrusca L. Leaf Extract(HP-01), Pycnogenol-French maritime pine bark extract, <u>Red Ginseng</u> , Plant Extract Mixture of Phellinus baumii and Salvia miltiorrhiza Bunge	13
33	Improvement of Muscle Strength	May help to improve muscle strength	Schisandra chinensis extract, Curcuma longa extract, Low Molecular whey protein hydrolysate(2), Fermented Oyster extract(FSO)	5
34	Hair Health	May help to improve hair condition (luster-elasticity)	Complex of Extract from Panicum miliaceum L. and Triticum aestivum L.(Kerana™)	1

1) _____ : Individually recognition ingredients converted to authorized ingredients

2) Cases where two or more functional properties were recognized from the same raw material were included and combined
